

# VETRATEK LLC

AI Enablement for Engineering Teams — With Guardrails

Veteran-Owned Small Business | SDVOSB Certification Pending | SAM Registered

UEI: PQJSD6L76L92

CAGE: 19D66

EIN: 99-3896339

Founded: 2024 | Austin, TX | Small Business

## CORE COMPETENCIES

Vetrattek helps engineering organizations deploy AI safely, measurably, and within compliance constraints — accelerating delivery without compromising governance.

- 01 AI-Assisted Software Development & Governance** AI/ML integration with structured governance, quality gates, and compliance controls for engineering organizations.
- 02 Engineering Team Enablement & Workflow Redesign** Embedded enablement that redesigns how teams build — not just which tools they use. DevSecOps pipeline optimization.
- 03 AI Maturity Assessment & Roadmap Development** Proprietary L0–L5 maturity framework with cross-functional assessment across engineering, QA, product, and release.
- 04 Production Delivery Acceleration** SDLC acceleration through AI-assisted development, test generation, documentation, and code review workflows.
- 05 Platform Engineering & Developer Experience** Internal developer platforms, toolchain optimization, and enterprise developer experience architecture.
- 06 Regulated Environment AI Integration** AI enablement designed for compliance-constrained environments (e.g., FedRAMP-aligned, FISMA, HIPAA-aware, FDA, SOX-sensitive, NERC CIP).
- 07 Technology Portfolio Optimization** SaaS rationalization and build-vs-buy advisory. Evaluate existing tooling spend against AI-enabled alternatives.

## DIFFERENTIATORS

- **Proprietary Frameworks** AI Maturity Model, Work Classification Matrix, Three-Tier Measurement System — structured IP, not generic consulting.
- **Regulation-Native Methodology** Frameworks designed for compliance-constrained environments from day one. Not bolted on after delivery.
- **Named Inventor on 8 U.S. Patents** Retail technology innovation at enterprise scale. Patent holder, not just practitioner.
- **Senior-Led, Founder-Delivered** Every engagement personally led by the principal. Senior-level expertise from assessment through implementation.
- **Veteran-Owned** U.S. Army veteran (2005–2014). Mission-driven discipline applied to technology delivery.

## NAICS CODES

NAICS	Description	Size Standard	Status
541512	Computer Systems Design Services (Primary)	\$34M	Small
541511	Custom Computer Programming Services	\$34M	Small
541519	Other Computer Related Services	\$34M	Small
541611	Administrative & General Management Consulting	\$19.5M	Small

## PRODUCT SERVICE CODES (PSC)

PSC	Description	PSC	Description
D302	IT Systems Development	D311	IT Data Conversion
D306	IT Systems Analysis	D399	Other IT and Telecom
D307	AIS Design & Integration	R408	Program Mgmt / Support
		R425	Engineering & Technical Services

## PAST PERFORMANCE

<b>Client</b>	7-Eleven, Inc. (Fortune 500, \$20B+ revenue)
<b>Period</b>	2019 – 2024
<b>Role</b>	Senior Software Engineering Manager, 7NEXT R&D Organization
<b>Scope</b>	Led 50-person engineering and QA organization delivering mission-critical retail technology. Scaled greenfield self-checkout system to 2,200+ locations. Cross-functional alignment across 6 enterprise teams.
<b>Relevance</b>	Enterprise-scale software delivery. Architecture modernization (monolith to microservices). Achieved <1% production incident rate and improved deployment cadence by 2.4x over three years. Named inventor on 8 U.S. patents. IT modernization and digital transformation.
<b>References</b>	<i>Available upon request</i>

## CONTRACT ACCESS

- Veteran-Owned Small Business (SDVOSB certification pending)
- Available for direct award under simplified acquisition threshold
- Available for subcontracting under established prime contractors
- Open to teaming arrangements, joint ventures, and mentor-protégé relationships
- Compliant with FAR and DFARS requirements

## CREDENTIALS & INSURANCE

<b>Professional Certifications</b> CISSP   CISM   PMP MBA   DBA (in progress)	<b>Insurance Coverage</b> Professional Liability (E&O): \$1,000,000 per claim General Liability: \$2,000,000 aggregate Carrier: Next Insurance <i>Certificate of Insurance available upon request</i>
<b>Military Service</b> U.S. Army, 2005 – 2014
